### **Happy Holiday Message:**

A few thoughts about the holidays. The big challenge is to focus less on things and more on experiences. Play with them and help them enjoy one or two of their gifts and they will spend less time looking for more. Now is the time to create your family's Holiday traditions. These really are the disappearing magic years when they still love to light candles and want to believe in Santa. They have the cutest lines of questioning, and will accept almost anything as a very special magical holiday phenomenon. Try caroling, or cookie baking, or wrapping, or story telling, or making gifts, or taking a special hike in search of evidence of reindeer or the coming solstice. Recall, retell, and invent your family's traditions. And have a very merry ...!
